Pope Urges Leaders To Cut Arms Spending, Provide for the Hungry

VATICAN CITY - Pope John Paul II, in his Christmas message Sunday, strongly urged world leaders to curb arms spending and turn their eyes to "the unspeakable sorrow" of parents unable to feed their

"Look upon the unspeakable sorrow of parents witnessing the agony of their children imploring them for that bread which they have not got but which could be obtained with even a tiny part of the sums poured out on sophisticated means of destruction," he said. Look with the eyes of the newborn child upon the men and women who are dying of hunger while enormous sums are being spent on

John Paul delivered his "Urbi et Orbi" - to the city and the world message from the balcony over the main entrance to St. Peter's Basilica to a crowd of almost 50,000 people. After the message he gave Christmas greetings in 43 lan-

"Listen, O Father, to the cry of peace that rises from the peoples being martyred by war, and which speaks to the heart of all those who are able to contribute, through negotiations and dialogue, to equita-ble and honorable solutions to existing tensions," he said.

It was the third time in four days that the pontiff issued an urgent call for dialogue to defuse world

Last Thursday, John Paul of-fered the Vatican's help in trying to "end hot spots of division and ha-tred" in international relations. On

■ Midnight Mass

William Tuoky of the Los Angeles Times reported from Vatican City: At midnight Mass at St. Peter's, the pope delivered the first of the two traditional Christmas messages, urging the world to rejoice in

the birth of Jesus.

"Let the Earth rejoice, Earth, you who are man's dwelling place, welcome into yourself once more

welcome into yourself once more the splendor of the night of the divine birth," he said.
"It is the beginning of glory, that glory which God possesses in the highest heavens," his sermon said. "And to this glory man has been called in Jesus Christ. And this happened precisely on the night of Bethlehem."

On Saturday, John Paul met at the Vatican with about 100 members of Rome's Polish community, telling them that he shares their hopes that Poland will become "a land of peace, of respect for rights and human dignity."

He sang Christmas hymns and broke the traditional unleavened Christmas bread with his fellow

Speaking in Polish, he said: "I share the worries, the fears and the suffering of my compatriots. But above all, I would like to support their hope, of which the newborn

Friday, he called for men to turn shooting John Paul on May 13, 1981.

Requests for Asylum Embarrass Yugoslavia

By David Binder

New York Times Service BELGRADE - Hundreds of Soviet bloc citizens have sought political asylum in Yugoslavia in the past two years, posing awkward political and logistical problems for the Belgrade government, according to United Nations and Yugo-

slav officials. The officials said that of the 2,919 persons who sought asylum in Yugoslavia last year, 1,830 were Romanians, and most crossed the frontier by swimming the Danube, which marks roughly half of the

346-mile (560-kilometer) border. In the first half of this year, the Belgrade office of the UN High Commissioner for Refugees registered 628 persons who crossed the border from Soviet bloc countries and Albania seeking asylum; 365

were Romanians Recently, Belgrade officials say, the government of President Nicolae Ceausescu of Romania has intensified efforts to catch people fleeing Romania, mostly young, unskilled workers. Romanian bortler patrols have recently crossed into Yugoslav territory in pursuit. of them, bringing protests from Belgrade that until now have not been publicized

In general, Romania and Yugoslavia have had good official relations for 20 years, but the issue of border violations was brought up by President Mika Spiljak of Yugo-slavia during his meeting with Mr. Ceausescu in Bucharest last month, Belgrade officials said

The government in Belgrade has made a policy of not publicizing the number of escapes or the routes used, but the figures are made public in annual UN refugee reports. Until now, UN officials say, Yugo-

lum to only a handful of the refugees and houses the great majority in two transit camps or Belgrade hotels until they can be indeed to other countries.

There is no case of Yugoslavia's having sent any of the people back to their countries of origin, Bel-grade officials say, though some Romanians may have been barred

Besides the large number of Ro-manians, most of whom seem to have been fleeing for economic reasons, many Czechs and Slovaks have asked for asylum. They numbered 180 in the first six months of this year and 763 for all of 1982. In addition, there were 28 Poles this year and 168 last year.

Among the other people seeking asylum this year were 18 Bulgarians, 11 Albanians and a handful of East Germans, Hungarians and Soviet citizens. For 1982 the figures were 67 Bulgarians, 39 Hungarians, 30 East Germans, 14 Soviet citizens

and 6 Albanians while the Albanians and Bulgarians, like the Romanians, came for

heavily guarded frontiers. "In a way it's amazing the way we have become a country of asylum," said a Foreign Ministry official, "especially considering we are in the middle of an economic crisis. But the fact is, we cannot afford to

Glemp Says 30 Prisoners Redeemer is fundamental." The pope also visited the family of Emanuela Orlandi: the daughter Freed in Signal to Church

WARSAW — Cardinal Jozef Glemp, Poland's Roman Catholic primate, said Sunday that 30 political prisoners were being freed by the Communist authorities as a ges-

ture to the church. Cardinal Glemp, who made the announcement during a Christmas Mass at St. John's cathedral in Warsaw, said later that the church was negotiating with the govern-ment for the release of 11 leading dissidents and former senior officials of the banned free trade

Both Cardinal Glemp and Archbishop Bronislaw Dabrowski, secretary of the Polish Bishops' Con-ference, refused to identify the 30. prisoners, and government officials were unavailable for comment

The authorities said yesterday that they were being released immediately but I have not checked to see whether they have physically Glemp said.

The government spokesman, Jerzy Urban, disclosed this month that more than 200 political prisoners were being held.

Archbishop Dabrowksi said the names could not "be divulged pending arrangements with the au-thorities. Some had been convicted and others were under investigative

The archbishop also refused to name the 11 prisoners on whose behalf the church had intervened. Informed sources said they were probably four members of the KOR dissident group and seven former top Solidarity officials. All are accused of plotting to over-

throw the state. The 11 have refused government offers to let them emigrate if they can find asylum in the West.

The authorities have been accused of deliberately delaying the trial. A trial would prompt criticism of the authorities from the West and from the church and would give the opposition a public platform to attack the government. It could also harm prospects for the lifting of economic sanctions im-

posed on Poland by the West. In his homily Sunday, Cardinal Glemp asked for prayers for Po-land's political prisoners and "for those who would like to work in their professions but have been dis-missed." Hundreds of former Solidarity activists have been dismissed

Joan Miró, 90, Surrealist Painter, Dies

By J.Y. Smith WASHINGTON - Joan Miró, 90, one of the great masters and creators of modern art, died Sunday at his home in Palma de Majorca, Spain. He had heart and hing

Miró was a surrealist who looked at the world from the perspective of his native Catalonia, and some of his greatest works depict the vibrance and earthiness of Catalan life: peasants, farms, fishermen, trees, animals, birds, toys, ancient and primitive decorations. Although his paintings are abstract. they depict specific things that the

artist held to be recognizable. He was influenced by the work Cezanne, Matisse, Van Gogh and Picasso, who was his friend as well as his countryman, and the primitive pictures of Henri Roussets, to which he was particularly attracted. He read the poetry of Rimbaud and Maliarme and other symbolists. He studied the crowded and tortured canvases of Hieronyours Bosch. He drew from all of these and more. He absorbed cub-

influence on abstract expressionists one of the three giants of European of a later generation such as Mark modernism in this century, and, Rothko and Jackson Pollock.

His more important works include "Standing Nude" (1918); "The Farm" (1921-1922); "Catalan Landscape (The Hunter)" (1923-1924); "Carnival of Harlequin" (1924-1925); "The Birth of the World" (1925); "Spanish Dancer" (1928); a series of gouaches called "Constellations" (1941), and three

Blue" paintings of the 1960s. Among his many sculptures and ceramic murals are ones at Wichita State University in Kansas, at UNESCO headquarters in Paris, which received the Guggenheim International Award in 1958, at the Harkness Commons of the Graduate Center at Harvard University, and at the Guggenheim Museum in New York. By Francis X. Clines New York Times Service

WASHINGTON - The State Department has recommended that President Ronald Reagan file notice that the United States will withdraw from UNESCO in 1985 unless the agency curtails what the administration regards as questionable political activities.

Mr. Reagan has a Dec. 31 deadline for deciding whether to send formal notice of withdrawal. If he does so, according to advocates of the recommendation, he would then have a year to continue U.S. participation in the agency while applying leverage for changes.

Administration officials have applying greater pressure with no-tice of withdrawal. complained that the United Na-

Nakasone Promises End To Tanaka's Influence

By William Chapman Washington Post Service

TOKYO - Prime Minister Yasuhiro Nakasone has apparently ensured himself of another year in office by promising to rid his party of the influence of his chief patron. Kakuei Tanaka, who has been conricted of bribe-taking.

A statement by Mr. Nakasone

on Saturday declared that Mr. Tanaka, a former prime minister. would no longer influence his policies. It won the support of other leaders in the governing party and paved the way for Mr. Nakasone's re-election when the Diet, or parliament, meets Monday.

Mr. Tanaka, who is often described as the "shadow shogun" of Japanese politics, made no public comment on the statement by Mr. Nakasone until now his ally and staunch supporter within the party. The statement contained no de-

tails and there were no indications of how the prime minister intended to keep the Liberal Democratic Party's most forceful power broker from influencing political affairs.
One of Mr. Nakasone's principal factional enemies, Toshio Komoto, reportedly accepted the statement

out in practice. The unusual statement, which singled out Mr. Tanaka by name at the insistence of some faction leaders, seemed to have closed the door temporarily on one of the party's most bitter disputes.

By Glenn Frankel Washington Past Service

HARARE Zimbabwe - Four members of a white farming family have been killed by dissidents in Matabeleland, according to the government.

day said that one of the dissidents was killed and the others fled under fire from farmers in the Kezi district, about 50 miles (81 kilometers) south of Bulawayo, the provincial

The names of the victims were being withheld pending notification of relatives.

More than 40 whites have been killed by dissidents during the last 18 months in Matabeleland, the political stronghold of loyalists of the opposition leader, Joshua

On Friday, Prime Minister Robert Mugabe said at a press conference that Botswana was allowing dissidents to infiltrate into Zimba bwe from its territory.

He also repeated long-standing allegations that the rebels were being trained and armed by South Africa, which South Africa has de-

Mr. Mugabe said: "Our main problem has been to get sufficient

support on the Botswana side. "The military, unlike the politi-cal leadership, is not cooperating with our military in eradicating the dissidents, and so there is still a base on the other side which dissidents are utilizing."

A Zimbabwean soldier was killed Tuesday by Botswanan Army forces about 50 yards (45.5 meters) inside the Botswana bor-

Zimbabwean officials said the soldier was part of a unit that had inadvertently strayed over the border while pursuing dissidents. It was the third such alleged incidenta in recent weeks.

Several rebels who have been captured in recent months have said that they were trained inside South Africa and returned to Zimbabwe to commit economic sabdtage and attack white farmers who provide nearly 90 percent of the country's commercial food sup-

Mr. Mugabe initiated a military crackdown in Matabeleland this ing. There had been reports several year that resulted in hundreds of civilian deaths and interpational condemnation of the government.

WORLD BRIEFS

2 Reported Injured by Blast in London

LONDON (AP) — An explosion outside Marks and Spencer department store on Oxford Street Sunday night slightly injured two people and shattered windows on London's main shopping thoroughfare, police said. Police were investigating "a second suspect device" found on Portman Square several blocks away, a police spokeswoman said. The explosion came just eight days after a car bomb outside Harrods department store killed five people and injured 95 others.

All London stores were closed for Christmas and Oxford Street was

almost empty. No one claimed responsibility for Sunday's explosion, which was apparently caused by a device in a garbage can.

Iran Orders 3 French Officials Out

LONDON (Reuters) — Iran has given three French Embassy officials in Tehran 24 hours to leave the country, the Iranian national news agency A government statement Satur-

IRNA reported Sunday in a dispatch received here.

The agency quoted a Foreign Ministry official as saying the expulsions were a reprisal for the arrests of Iranian Embassy officials in Paris last week. The official said the three diplomats and some framian students had been "subjected to physical brutality" by immigration police before they vere expelled from France on Saturday.

Prime Minister Mir Hussein Moussavi announced earlier Sunday that "a number" of French diplomats would be expelled, and said the move would "bring relations between the two countries to the lowest possible level." The expulsions by France followed the closing of two French cultural centers by Tehran.

Dutch Artists End Museum Occupation

AMSTERDAM (Reuters) -- An artists' occupation which has forced closure of the Rijkmuseum, the Dutch national museum, for the past 16 closure of the Rijkmuseum, the Dutch national misseum, for the past 16 days ended early Sunday, a spokesman for the artists trade union said.

Between 30 and 100 artists had been occupying the special gallery in the Rijksmuseum which houses the "Night Watch," by Rembrandt The occupation was staged to protest government plans to cut art subsidies. The minister responsible for culture, Eelco Brinkman, announced free admission until Jan. 1 to the Rijksmuseum and the Van Gogh museum nearby, which was also closed during the protest.

Angola Reports Attack by South Africa

LISBON (Reuters) — South African aircraft have bombed several-villages in southern Angola, the official Angolan press agency, Angop,

Quoting a senior armed forces official, the agency, monitored in isbon, said the planes bombed the towns of Cuvelai, Mulondo, and Cahama Saturday morning. It said there were no guerrilla camps of the South-West Africa People's Organization or soldiers in the area. The official said Angolan forces had suffered some casualties, but gave no figures for either side.

On Friday, South Africa said it was pursoing a limited campaign in Angola against SWAPO guerrillas fighting for the independence of neighboring Namibia or South-West Africa. Last week Angop reported heavy South African bombing in southern Angola, which it said destroyed houses, a hospital and schools.

Dhaka Reportedly Will Expel Russians

DHAKA, Bangladesh (AP) - Bangladesh has told a number of sian diplomats to leave the country on Monday and has ordered the closure of the Soviet mission in Chittagong and cultural center in Dhaka,

ascording to a newspaper report.

The newspaper Holiday Weekly said Saturday that the government told the Soviet ambassador, Valentin Pavovich Stepanov, that the diplomats and their families were expected to be on Monday's weekly Aeroflot flight to Moscow. It did not say how many were ordered out, but said the government believed they had been involved in spying on previous assignments in other countries.

Two leading newspapers reported previously that Mr. Stepanov was summoned to the Foreign Office on Nov. 28 and ordered to cut his embassy staff in half. The summons came hours after a bloody clash between anti-government demonstrators and security forces outside government offices in Dhaka, and news reports at the time linked the two

Polisario Seizes South Korean Sailors

SEOUL (Reuters) - Polisario guerrillas seized three South Korean sailors from a trawler they attacked in the Atlantic Ocean off northwestern Africa, according to a Foreign Ministry official in Seoul Five other Koreans aboard the ship, the Ain Onauli, were missing the official said. Sixteen crew members, including eight Moroccans, were rescued by a caught fire when the guerrillas threw hand grenades at it Friday but that the blaze was put out by the patrol boat.

The Polisario Front has been fighting Morocco for the independence of the Western Sahara for eight years. The goerrillas said Wednesday that Morocco had launched a major offensive against the Polisario.

A coalition of civil rights, re-tingous and educational leaders will work to cause \$5 million next year to avert the financial collapse of Fisk University, one: of the nation's most prestigious

black colleges. The 117-year-old university, the oldest institution of higher the oldest institution of higher learning in Nashville. Tennessee, has \$2.8 million in debts and virtually no way to pay them. Its heating was cut off in April because of an unpaid \$170,000 gas bill, and students shivered in their dormitory comes until late November towns to the towns to the towns towns towns to the towns towns towns to the towns towns to the towns towns to the towns towns to the towns towns to the towns towns to the towns towns towns to the towns towns to the towns to the towns to the towns towns to the towns towns towns towns to the towns to the towns towns to the towns towns to the towns towns to the towns towns towns to the towns towns towns to the towns towns to the towns towns towns to the towns towns to the towns to the towns towns to the towns to the towns towns towns when townspeople donated funds to pay the bill. Fish's president, Walter J. Leonard, anagenced his resignation in November, saying he understood that large donors souldn't give as long as he was president. Mr. Leonard's lead-ership itself has been controversial since he became president in 1971, and the faculty gave him a vote of no confidence by a narrow majority last spring. The university's plight re-flects the twin dilemmas of

most of the country's 105 his-torically black colleges: rising costs and falling enrollments. No longer restricted to the predominantly black institutions many black students are exercising their options to enroll elsewhere. Fisk's enrollment, for example, fell from 1,600 in 1972 to only 695 this year. To shore up its financial position the school has had to dip into its endowment, now down to slightly more than \$3 million compared with \$14.6 million in

The coalition conference which came up with the \$5-million fund-raising strategy to save Fish was hosted by pre-dominantly black Howard University in Washington, D.C., whose staff and faculty chipped in \$14,000 in less than a week.

Tax Agents Watch **Holiday Spirits**

With the holiday party season in full swing, revenue agents from Maryland and Virginia have been staking out cutrate liquor stores in Washington, D.C. to make sure too many Christmas spirits don't

cross their state lines. Both states bordering the District of Columbia limit the amount of liquor that can be legally transported across state lines. But lower taxes and cutthreat price competition among Washington discount liquor re-tailers make holiday cheer a relarree bargain in the nation's capital, as well as a powerful here for Marylanders and Virginians stocking up for parties. As a result, Virginia stations

as many as 12 revenue agents near Washington discount liquor stores and Maryland keeps six to eight agents operatmg in the city between Thanksgiving and New Year. Walching out for cars with their state's license plates, the agents can follow big buyers and stop them once they cross the state lines with more than the legal quanti-ties of liquor allowed. Virginia allows individuals to bring only one gallon into the state, and Maryland limits legal amounts to one quart at a time and no more than two quarts a month. Backed up with fines, prison terms and confiscation of excess liquor, the limits are aimed at preventing the loss of tax revenues from the states' cof-

U.S. Panel on Hunger, In Draft Report, Urges Wider Food Stamp Plan

By Robert Pear

تعكذا عن الأصل

New York Times Service WASHINGTON - A presiden-

tial commission investigating hun-ger in the United States, in the first draft of its report, calls for a slight expansion of federal food assistance programs and the conversion of food stamps to cash benefits for some families, according to members of the panel.

In a separate development, Richard E. Lyng, deputy secretary of agriculture, said that President Ronald Reagan would seek no new cutbacks in food and nutrition programs when he submits his budget for the next fiscal year to Congress in January.

Hunger has emerged as a volatile political issue, in part because of comments made this month by Mr. Reagan and his counselor, Edwin Meese 3d, who said that the evidence of hunger seemed to be mainly "anecdotal."

Democratic presidential candidates denounced the comments. and Senator Edward M. Kennedy, Democrat of Massachusetts, asserted that administration policies on the issue had been "inhumane"

and "indecent." Members of the hunger commission, the President's Task Force on Food Assistance, said that the draft report did not criticize Mr. Reagan's policies but suggested changes that would partly offset

cutbacks enacted in the last few For example, they said, the report suggests liberalizing the assets test, which bars a household from receiving food stamps if it has resources of more than \$1,500 (or

\$3,000 if there is an elderly person in the household). The report, they said, also sug-gests a food-stamp allotment sufficient to pay for the low-cost diet known as the "thrifty food plan,"

which is used as a basis for computing benefits. The commission members, who have been reading the draft report, are to discuss and perhaps after it

before issuing it next month. Among its recommendations is a substitution of cash benefits for the food stamp coupons issued to el-derly and disabled people. The cash would enable these people, who may have difficulty making their own meals from food bought with the coupons, to buy prepared

Many county officials and some anti-poverty groups have support-ed such a change, saying it would give beneficiaries more discretion in using federal aid. But they maintain that it should be part of a general revision of income-support

nied by some increase in benefits. ing up from Mobile and Prichard to Another argument for such a shop here, it really hurt. Things are change is that it would simplify the just getting back to normal, so the issuance of benefits and reduce adlast thing we need is a Klan march ministrative costs.

Critics say that the cash would

not be earmarked for food and that

people could spend it unwisely.

The recommendations in the report would also make states pay still penalties for errors in the food stamp program, so that, in theory, more money would be available for the needy. Task force members said the report recommended that states bear the cost of any overpayments exceeding 3 percent of total food stamp benefits.

A spokeswoman for the Food and Nutrition Service, Jane M. Vachon, said the national error rate averaged 12 percent from October 1981 to March 1982, the most recent period for which the statistic

The draft report did not specify the maximum assets that a food stamp household should be allowed to have. The Food Stamp Amendments of 1970 replaced var-

ious state ceilings with a uniform national limit of \$1,500. The Omnibus Budget Reconciliation Act of 1982 reduced basic food stamp allotments by I percent, so a four-person family with no other income now gets coupons worth \$253 a month, representing 99 percent of the thrifty food plan. The task force report recommends paying at least 100 percent, mem-

bers said. Local welfare officials said such change would not substantially increase the purchasing power of low-income families, but they described it as a step in the right direction.

Edwin L. Dale Jr., a spokesman for the Office of Management and Budget, confirmed that Mr. Reagan would not seek new curbacks in food programs.

But he said that the president reserved the right to resubmit proposals that Congress did not approve last year.

lo January 1983. Mr. Reagan proposed an 8.5-percent overall reduction in food and nutrition assistance, to \$16.3 billion. Congress agreed to very little of the cutback.

The Banks and the Debts

charge strikingly high interest rates to the indebted Latin American countries. That raises questions not only about their policy but about their judgment. Trying to squeeze the maximum short-run profit out of the loans can only increase the jeopardy to among others, the banks themselves, Jacques de Larosière, the managing director of the International Monetary Fund, touched on this delicate subject in a recent speech.

The banks owe much to the IMF; without the IMF and its skillful work during the past year, it is likely that there would have been defaults on some of the Latin loans. What are the banks going to do in return?

Mr. de Larosière did not belabor the point. merely observing that "credits should be provided on reasonable terms in order not to compound unduly the balance-of-payments and indebtedness problems of debtor countries." What is reasonable? He didn't go into it. but you can safely assume that he meant something substantially less than the present two points over the prime rate, now 11 percent.

He went on to suggest that the "demonstrated performance" of debtor countries ought to be a factor in setting rates. In other words, if Mexico's government takes the country into a courageous and painful deflation to carry the

Banks in the United States continue to loans, Mexico's bankers ought to be careful to reward it. So far they have not been.

Concern about the banks' performance is not limited to the IMF. Getting the IMF bill through Congress this year was difficult because a lot of members thought mistakenly that the IMF was working for the bankers. The more extreme language about banks was combed out before the bill was enacted last month, but it tells the secretary of the Treasury to do what he can through the IMF to encourage rescheduling of these countries' debts on terms "consistent with safe and sound banking practices and the country's ability to pay."

The IMF bill limits rescheduling fees to the real administrative cost if, as they generally have done, the banks collect it immediately. Rescheduling involves a certain amount of running back and forth and some lawyering. But the fees have been running at 1.5 percent of the loan, and on a loan of \$4 billion that makes \$60 million - which would cover a lot of plane fares, Most of this is pure profit.

If it is true that the Latin countries borrowed too much, it is equally true that the banks lent too much. The Latin Americans are now paying for it with severe recessions. It is time for the banks' shareholders to pick up at least a little of the penalty.

- THE WASHINGTON POST.

Time for a Tax Increase

It's budget time in Washington, which means much jockeying and posturing and scant concern, in all the fiscal fog. for reality. But reality this year looms up out of the fog.
The outlook is for year upon year of \$200 billion deficits. No reputable analyst thinks that growth without inflation can be sustained when the government has to borrow that much money, or that these deficits can be controlled without raising taxes. Yet President Reason still insists it be done just by cutting spending. That slogan may help to restrain spending, but it makes no sense as policy. That is why, Mr. Reagan's posturing notwithstanding, his own policy-shapers are looking at several ways to get to higher taxes anyway.

Possibility No. 1 is to repeat last year's proposal for "contingency" tax increases. These would not take effect before late 1985, and not at all unless a combination of budgetary and economic conditions were met.

Possibility No. 2 is a fig leaf, and a seethrough leaf at that. In the capital's jargon, it's a "revenue plug": Write a budget that anticipates a certain increase in future revenues from unspecified tax increases, and promise to come up with specific tax ideas later.

Possibility No. 3 is fundamental tax reform either a broad removal of many exemptions, combined with significant reductions of tax rates, or else a radical shift to taxing consump-

one-party state in a pluralist society.

Other Opinion

value added to goods or on sales. But a contingency tax could be credible only

if the administration set more realistic conditions for its application. As presented, it would allow no tax increase unless Congress ap-proved all the president's proposed spending cuts and the deficit exceeded 2.5 percent of GNP and the economy continued to grow.

The "revenue plug" approach is meaning-less. Given the political resistance to attacking the deficit, no one could put any faith in a declaration that said, "We don't know what to do but we'll come up with something." And fundamental tax reform, although

highly desirable, could not possibly be enacted soon enough to relieve the present burden. It is time for the president and Congress to

act. As Herbert Stein, former Republican chairman of the Council of Economic Advisers, has said. "The conditions that call for a tax increase are here. We don't have to wait." Alice Rivlin, until recently director of the Congressional Budget Office, adds a powerful point: The very act of approving an increase, even with a future date, "would send a signal that Congress is serious about the deficit.

The fact is that the deficit danger is clear and present. Without the certainty of a tax increase, it will get worse.

- THE NEW YORK TIMES.

Thinking About Peace on Earth

WASHINGTON — It is not easy — and to many people may seem silly - to write during this Christmas season about peace and good will on Earth. Seldom in recent years has there been more tension between the battling nations and conflicting creeds of the world. There are wars in the Middle East at the very cradle of civilization; rebellions and hideous massacres in Central America and Southeast Asia: tribal and vicious racial strife in Africa.

All this is dominated by such a crisis between the two major nuclear powers that they are scarcely speak-' ing to one another about the common danger of the arms race on Earth and its extension into outer space. Yet it may be relevant at the turn-

ing of the year to recall that in the long and bloody journey of the hu-man race there have been many other seemingly hopeless tangles that were eventually controlled by patience and the unexpected twists of events. In our own time, enemies of World War II have become allies. Pearl Harbor - The day that will live in infamy," as President Roosevelt By James Reston

called it - has dwindled to a commercial struggle between Toyota and General Motors, and even they are making cooperative deals. The ancient struggle between France and Germany has been composed by common fear of the Soviet Union.

The alliance between Moscow and Beijing, the fear of which led to the Korean War, has collapsed. Washington now has better relations with both of them than they have with one another, which is not saying much.
So we have to be careful about

these nightmare omens around us tragedy in Lebanon, the Iraq Iran war, terror bombings of American marines and embassies, the threat to the flow of oil from the Guif. It can be hard to remember that

at the end of the last century nothing seemed more ominous to the peace of the world than the tension between Britain and France. And yet with the rise of German power they had within a few years become allies under the Entente Cordiale.

of superiority over their rivals. But it

is better communication than ever in

Nations as we know that institution.

Together with the fact of inequality

of power, they prevent any possibility

of a modification of Article II.7

("Nothing contained in the present Charter shall authorize the United

Nations to intervene in matters which

are essentially within the domestic

jurisdiction of any state ... ") or of

abolition of the right of veto in the Security Council. Some day there may be an institution that does not have these limitations. The United

For the same reasons, it is vain to

speak of putting teeth in the mouths of United Nations agencies. In a

gathering of autonomous nations it is vain to hope for any pumitive capabil-

ity. To seek it at the present stage of our development is to invite the as-

of democracy and the goal of justice is the sharing of power with the weak. If we look for powers of policing

and judgment we must ask ourselves,

liced and judged? By whom do we wish to be policed and judged?" We

may and must hope that nations in conference will agree on successively higher norms and standards of con-

duct, and that these will have an

increasing moral force. But to turn

conscience at the national level.

of the United Nations.

In the United Nations we search

for the locus of ultimate responsibil-

ity for the fate of the world, and we

find — ourselves. Its limitations are

our shortcomings, and we shall not remedy those by seeking a more ide-alistic, less realistic design for an organisation which can only be inter-

national, not yet supranational.

Besides, we are living through too

violent an era of change to come to

conclusions about a future interna-

tional regime. The proliferation of problems in a world in transition—

decolonization, with the consequent

need to redefine the relationship

which is made worse by the inade-

quacy of some of the major instru-

ments of cooperation; accelerating

writer, a Canadian, is secretary-gener-

al of the World Confederation of Orga-

nizations of the Teaching Profession,

based in Morges, Switzerland.

reached through strife

among peoples; economic imbalan

Nations will always have them.

We are now, in our own day, confronted by a religious war of Islamic fundamentalism. It took American hostages in Tehran and has blown up American and French troops and premises in Beirut and Kuwait. It is station of Foreign only by a reach of historical imagination that we can remember that a much more vicious religious conflict dur Yen Borrows went on for hundreds of years between Islam and Rome, and another between the Protestants and the Catholics, until they were finally resolved by military stalemate and acceptance of the principle of compromise and toleration.

Herbert Butterfield, the Cambridge historian, once remarked: We today see East and West reared up against one another as two mutually hostile, mumally inconsistent systems — capitalism versus communism, democracy versus dictatorship, Western ideals versus aggressive materialism. Many people are unable to believe that a relief from tension is within the range of the possible.

"They find it difficult even to imagine that such a détente could ever begin. Yet there have been similar conflicts between mutually exchsive systems in the past, and after deadlocks that seemed absolute and inescapable our predecessors have in fact managed to achieve a détente."

This may be possible again, despite the storm and thunder of propagan-da. Presidents Reagan and Andropov protest against each other in their old the past. Having said that, though, we must remember that the word "na-tions" is still plural. age, yet they are trapped together. But they can't even get together to

discuss their common danger.

But something new is happening.

The fear of nuclear war has the feel Nations are autonomous, and their goals frequently place them in com-petition with each other. These are facts of life, and they set limits to the possibility of evolution of the United of mortality in it. It is an elemental concern having to do with life and children, and is not merely another passing political issue.

For the moment there is a stalemate, a silence between the old men at the top of the governments in Mos-cow and Washington. Maybe, over Christmas, that silence is not such a bad thing. For in their present mood

they have nothing to say. Elsewhere there is rising resentment against this battle of the nuclear giants. It is not only that the NATO allies are pulling back from Mr. Rea-gan's theatrical military adventures, but that even the communist East European countries are beginning to wonder what kind of leadership they are getting from the Kremlin and

who, if anybody, is in charge. It could be that people who usually don't pay much attention to these things have an instinct for life and are sumption of greater power by those who are already powerful, and surely we do not want that, since the essence saying that they must be heard. The New York Times.

'United' Nations? Better, 'Communicating' Nations

GENEVA — Excessive optimism are equally dangerous. The United Nations has suffered from both.

No institution is eternal. Each is born in particular circumstances. These change, forcing institutions to evolve. When they reach the limits of their ability to adapt, they die. Long before then they reach a point of no return, when their increasing irrelevance leads their most important constituents to abandon them.

Without any doubt the United Nations as we know it will some day become obsolete, to be supplanted by an organization that brings a further advance in the raising of political decision-making to the international, or supranational, level. If we are lucky the transition will be peaceful If we are less lucky, it will follow the agonies of another general war.

In the meantime, our task is to get the maximum benefit from what we have, within the limitations of present realities, and to do our utmost to postpone the moment when the increasing rift between the needs of peoples and the capabilities of the institution drives out those members whose presence gives it meaning. Consider, first, the difficulties.

The very name "United Nations" misleading, and an invitation to ialse expectations. The founders were a group of temporarily united naBy Norman M. Goble

tions, in exceptionnal circumstances, Unity arises from a compelling sense of common interest, which is difficult to generalize widely or to sustain for long. The political and ideological climate, and the present UN constituents, are not at all what they were at the time of founding. This is, in fact, an organization in

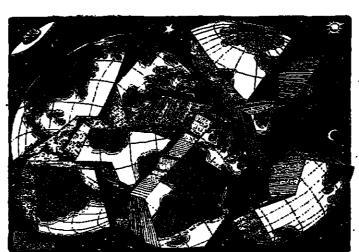

activities is remarkable enough. To expect a consistent display of decisive unity would be naive.
What we have instead is a gatherimperfect, and a little too heavily

ing of communicating nations.
The communication is admittedly whose conception and design the great majority of present members adjectives that groups of people, of had no opportunity of participation.

If the United States world that has been helpless to support him against Syria. However, he might provoke a further disintegration of the PLO. He will need withdraws, there will be important ones, in my opinion - and for American relations with the rest of the United Nations system.

For Jews the Feast Is Hanukkah If America does not withdraw after There is no time when it is more important such a recommendation, the view for Jews to fight assimilation than during the widely prevalent in UNESCO - that Christmas season. For roughly at the same time that Christians celebrate Christmas, Jews it is a paper tiger will be greatly strengthened, and U.S. credibility celebrate Hanukkah - the holiday that afthere will be extremely low.

UNESCO is in a bad state — much worse than the rest of the United Nations or any other specialized agency associated with it.

UNESCO is a thoroughly politicized institution dedicated to attacking fundamental Western values, interests and institutions. It attacks and seeks to circumscribe the free Westem press. It characterizes Western culture as an "imperialist" threat to the identity of other peoples. It attacks the free market economy and multinational corporations. It seeks to downgrade individual human rights in favor of nebulous and proliferating "rights of peoples," thus helping tyrannical states to impose their orthodoxies on their subjects.

its pronouncements on the complex and delicate issues of peace and disarmament — subjects on which it is incompetent --- are biased and hostile to the Western case. It is consistently hostile to Israel and provides political and financial support to the Palestine Liberation Organization.

The Third World majority and the Soviet-bloc member countries are not alone in engaging in these attacks. The UNESCO secretariat — up to and most definitely including the director-general. Amadon Mahtar M'Bow, of Senegal — is thoroughly politicized and anti-American.

Meanwhile, the organization is mostly silent about the sins of totalitarian regimes and repressive Third World countries. It is worth noting, because it conveys something of the atmosphere of the organization, that when President François Mitterrand of France expelled 49 Soviet spies earlier this year, a quarter of them were connected with UNESCO.

UNESCO is also appallingly managed and administered. A recent poll of members of the secretariat showed that only 3 percent of those polled considered that UNESCO recruited high quality people or promoted on the basis of professional efficiency. Basic features of good management such as objective evaluation of programs, comprehensible information about the budget, the efficient allocation of resources and adherence to proper procedures in meetings are conspicuous by their absence. Unlike other United Nations agen-

cies, UNESCO strongly resisted curtailing its budget to near zero growth, as requested by the major contributors. (It asked for a 9.6 percent increase for 1984-85, and has finally got a 3.5 to 5 percent increase.) Given these characteristics, it

seems to me that the United States should withdraw from UNESCO. It is politically and morally wrong for it

By Owen Harries

to lend authority and legitimacy — and to provide some \$50 million a year, or 25 percent of UNESCO's budget — to such an organization.

Some people will dispute this conclusion and argue that the United parts of the United Nations system. prove things from the inside. But this has been tried in the last few years and has failed. The problem is that the deck at UNESCO is so stacked by the one-member, one-vote system, the politicized secretariat, the widespread use of patronage and the divorce of funding from decision-making — that no amount of effort will effect significant change. The problem is a political one and will yield only to a political solution.

 salutary shock in UNESCO. Prag-matic Third World countries would have to think again, weigh the costs of uninhibited anti-Americanism and consider seriously the advisability of putting the UNESCO house in order. There would also be a healthy effect on America's relations with the other

Above all, a decision to withdraw would have a good effect on the United States itself. A country that takes its ideas and its values seriously cannot, without doing damage to its sense of itself, afford to subsidize an organization that systematically undermines those ideas and values and that shows consistent hostility to the institutions that embody them.

The writer, a recent Australian ambassador to UNESCO, is a Heritage An announcement of the U.S. in- Foundation fellow. He contributed this tention to withdraw would register a comment to The New York Times.

'No, It Is Not Always Better to Talk With Enemies'

WASHINGTON — The damage done by UNESCO is less in enforcing pernicious rules than in making the world's few democracies collaborators in a terrible taxidermy. The categories of Western political thought are emptied and then stuffed with new meanings, as when, at a conference on education, Western delegates politely listened to the delegate from the Ukrainian Soviet Socialist Republic report that Soviet schools teach "respect for human rights and fundamental freedoms."

A liberal society's most deeply rooted sentimentalism is faith in communication - dialogue, negotiations. Is it not always better to talk than not to talk with enemies? No, not when the mere act of meeting to talk about important things — freedom, justice, rights, trade unions, journalism — suggests, falsely and to the enemies' advantage, that all participants use those words to denote essentially the same things. Or, worse, when the mere observance of diplomatic niceties — the stately minuet of conferences — legitimizes the idea that there are two quite different but equally eligible meanings for those words. UNESCO is an instrument for the intellectual disarming of the West.

- George F. Will in The Washington Post.

'The Walkout Announcement Is a Decade Overdue' WASHINGTON — The decision to withdraw from UNESCO is to be

made by President Reagan this week. The American walkout announcement is a decade overdue. UNESCO started out to promote literacy and ment is a decade overdue. UNESCU started out to promote literacy and facilitate scientific communication, but its takeover by Communication and Third World demagogues led to a perversion of its aims. In recent years it has been a hothed of rhetorical disparagements of Western industrial democracies and a center of attempts to de-legitimize Israel.

For years, accommodationists in the United States have joined with some

hard-liners in arguing that it would be wiser to remain within UNESCO in hopes of reforming it. The Unescocrats have taken this as a sign of weakness; in staying on, we have contributed to our own victimization.

No more. In a transformation of basic outlook, the professionals at the State Department have sent a tough withdrawal recommendation to the president. Now we shall see if Britain's Conservative government, which seems to be losing its will, supports our action in word or deed. Soon we shall see how the Canadians, the French, the Dutch and the British — who liked to let Uncle Sam tackle the difficult UNESCO chores — step forward to defend Israel from Third World retaliation.

- William Safire in The New York Times.

A Major Objection: The 'World Information Order' T OS ANGELES - Underdeveloped countries have long complained that

Western news agencies monopolize communication, emphasize political difficulties and minimize social progress in Third World nations [UNESCO] proposed international standards and a licensing system for journalists that would convert news agencies into tools of governments. The scheme has been resisted for a decade by Western news organizations and governments. Last month in Paris the UNESCO General Conference edged away from the proposal, and instead approved a two-year study on news reporting's effect on iternational relations and on domestic affairs in developing nations.

The warm reception by the West of this shift in UNESCO sentiment may

have been premature. This month the UN General Assembly stepped into the dispute and approved not only a resolution in favor of a "world information order" but also a set of guidelines. The vote was 135-4, with only the United States, Britain, Israel and Ecuador against it. Nine nations abstained.

The resolution appealed to governments and "information and communication media, both public and private ... to disseminate more widely objective and better balanced information about the progress of developing nations and about UN activities." Such a goal is laudable, but the Western press cannot submit to any form of government influence or regulation.

- The Los Angeles Times.

Swiss Easing of Foreign Bond Curbs May Lure New Borrowers, Bankers Say

TONDON—The Swiss national bank's latest easing of restrictions on London bonds is likely to lure new borrowers to the Swiss public bond market, bankers say. The relaxation, announced Friday and effective Jan. 1, raises to 200 million Swiss francs from 100 million francs the maximum amount

milliest Swiss francs from 100 million francs the maximum amount allowed for each issue from a foreign borrower. Swiss bankers say the change should suit some big U.S. and European corporations accustomed in raising the equivalent of about \$100 million at a stab.

In addition, borrowers will get more flexibility on timing. The central bank is scrapping its quening system and allowing borrowers to step into the market at short notice, as they can in the Eurodollar bond mar-

U.S. Aid to Poor Nations Called Near OECD Low

gave proportionally less of its iron out abnormal annual varia-wealth to poor countries during tions. On this basis; the following 1981-82 than almost any other major non-Communist nation, the Organization for Economic Cooperation and Development says in a

NEW TEDOTIL - And over a seven-year period betioning in 1976, the report concludes. U.S. aid as a percentage of its GNP declined by a greater facfor than in any Western industrial

ht its latest annual survey Western aid, the 24-nation OECD aid that U.S. aid during 1981 and 1982 averaged 0.23 percent of its gross national product. This ratio was lower then any country surveyed except Italy, which has setere development problems of its own in its poor southern region, it

However, the United States done accounted for 40.5 percent of the organization's aggregate GNP in 1982. Thus, a relatively small aid waterbution in terms of percentage GNP still constituted a very The report, issued by the OECD's development aid commit-

les, antibutes the American performance to a pointrai trimer to aid for the been unfavorable to aid for variety of ace to a "political climate which more than decade for a variety of complex political reasons."
But the report also says that more recently Washington's aid

program has been hurt by the Reaan administration's efforts to reduce the growth of federal expenditures and by a "further hardening

of congressional attitudes."
The report was released two weeks after 32 aid-giving Western manous appealed to President Romaid Reagan to increase the amount of money he will ask Congress to tribute over the next three years to the International Development Agency, a branch of the World Bank that makes loans to the very poorest countries on easy terms. In their appeal, they criticized the administration's plans to limit the American contribution to the DA to \$750 million a year instead

By Paul Lewis The committee compared indi-vidual nations aid performances over those two years in order to countries were listed as the most

> • The Netherlands - 0.92 per- Sweden — 0.92 percent. Norway —0.91 percent.

generous when their aid was mea-

sured as a percentage of GNP:

● Denmark -- 0.75 percent. • France -0.74 percent • West Germany - 0.47 per-

 Britain — 0.41 percent. (The figure for France includes aid to overseas departments. Excluding this, France's aid ratio was 0.47 percent.)

The development aid committee noted that the Netherlands, Norway, Denmark and Sweden were the only Western countries so far to meet the United Nations aid target of seven-tenths of 1 percent of gross national product. France has said it will provide this level of aid to developing countries other than its Overseas Departments by 1988. Austria, Canada, Finland and Italy plan to meet the goal by the end of the decade.

Australia, Belgium, Germany, Japan, New Zealand and Britain accept the target but have given no date for getting there. The United States and Switzerland refuse to accept the target at all. Switzerland, a traditionally small donor, gave 0.25 percent of its GNP in the years

The OECD committee also compared aid budgets during 1976 and 1977 with the average for 1981 and 1982. It then calculated the speed at which individual countries are moving toward - or away from the seven-tenths of 1 percent target. The United States comes out at the bottom of this table. In 1976 and 1977 average U.S. aid equaled 0.25 percent of GNP. But this figure fell to 0.23 percent in 1981 and 1982. Canada, Britain and New

At the other extreme, the Netherlands, Norway, Sweden and Denmark expanded aid most rapidly.

7-pland also reduced aid payments

as a percentage of gross national

of the \$1 billion a year they want.

gentalt describes

7.5% of GNP Of U.S. Called Underground

Amount Hidden Is Said To Total \$222 Billion

WASHINGTON — The under-ground economy, hidden from tax collectors and government regulators, is probably around \$222 bil-lion, or 7.5 percent of the U.S. gross national product, a new study says.

Dr. David O'Neill, chief of the socioeconomic studies branch of the Census Bureau, made the estimates in a study released Saturday by the congressional Joint Eco-nomic Committee.

The size of the underground economy has been hotly disputed. Estimates have ranged from \$150 billion to \$600 billion.

11.95 % 10.54 % 10.94 % 10.67 %

Total Dollar State

Cedel 4,955.50 3,776.80 1,178.70 Euroclear 11,387.80 9,991.30 1,395.90

Mr. O'Neill, using a new indirect method of measuring the growth of the underground economy, conceded that "as with the other indirect methods, our estimates are also imprecise and perhaps unreliable." He said his study dealt with that

part of the underground economy which is not now measured in GNP "It corresponds more closely to

the popular image of the UE jun-derground economy.—individuals selling their services, earning in-come and reporting nothing to the IRS and possibly dealing only in cash in order to cover up any soil cash in order to cover up any trail the IRS might utilize," Mr. O'Neill

He added that his findings would imply that current lost tax revenues "may not be as large as thought and that "concern about serious biases, in the GNP and other statistics, at least at present may be over-

Mr. O'Neill said an analysis sug-gests that if the UNUE [the totally unmeasured part of the undergound economy] is large, then it is composed mainly of on-the-side workers who have a regular job in the above-ground economy.

"These individuals will be extremely hard to detect by methods that seek to survey them directly,"

Senator Roger Jepsen, Republi-can of Iowa and chairman of the joint committee, said that while the 7.5 percent figure was not as "high as some estimates, and implies less loss of tax revenues as a result, the study strongly confirms that the underground economy is quite

"Too many Americans continue to hide their economic activity, primarily to avoid paying taxes," Mr. Jepsen said. "Efforts to reduce high marginal tax rates and to eliminate onerous government regulations could vield significant returns at the expense of the underground

Goldman Sachs in High Stakes Game

Block Trader Mnuchin Sees Gain in 'Old' AT&T

By James Pelrz The Associated Press

NEW YORK — Sitting in his unpretentious glass-enclosed office for an interview, Robert E. Minichin stares at an electronic screen in the next room where green figures glide by showing prices of the stock market's latest trades. Suddenly he leaps to his feet to face a boisterous

bank of some three dozen stock traders glued to His eyes still focused on the screen, he barks out "250,000 shares of Telephone, 641/2!" - then turns

and sits down again.

Mr. Mauchin wants the market to know Goldman, Sachs & Co. is ready to buy 250,000 shares of "old" American Telephone & Telegraph for \$64.50 a share — "old" as compared with "new" AT&T stock trading when issued now for settlement after

AT&T's breakup next year.

Goldman Sachs is not hot to own "old" AT&T -often referred to as Telephone on Wall Street for its own sake as an investment, but wants anyone else anxious to sell 250,000 of those shares know a buyer is out there.

Such feelers and actual transactions occur dozens of times a day in Goldman Sachs' trading room, where hundreds of thousands of shares are bought and sold.

This is the high-stakes world of block trading, where such firms as Goldman Sachs move 10,000 or more shares at a crack, usually for institutional investors such as pension funds, banks and the

Block trading has grown in the past few years to help such investors buy and sell big chunks of shares faster. If an institution wants to sell 200,000 shares,

dumping them all on the market at once could send the price sharply lower at the seller's disadvantage.

ه كذا من الأصل

Robert E. Mnuchin

Or, selling the shares in parcels could take days, leaving time for the price to fall. Enter the block trader. It will either line up a buyer for those shares or buy some or all of the

shares itself to help the investor unload the stock. And, in some cases, a block of a million or more shares might trade after several buyers and sellers have been lined up on each side. Goldman Sachs, one of the few remaining part-nerships among the big investment firms, holds the

reputation as one of the canniest block traders on Wall Street, and Robert Mnuchin (pronounced Ma-noo-chin) is the firm's chief block trader.

A New York City native, Mr. Mnuchin, 50, is (Continued on Page 9, Col. 5)

Southern Pacific, Santa Fe Merge

ICCLifts Order Blocking Link Sought by Rival Railroads

By Agis Salpukas

New York Times Service NEW YORK - Santa Fe Industries and Southern Pacific Co. have merged into a new holding companv. hours after the Interstate Com-

merce Commission lifted an order blocking the combination. The order was imposed last week, in response to protests by three other railroads, to allow the

commission further time to review anti-competitive implications. The commission now has 31 months to decide if the two railroads owned by the merged compa-nies can combine as well, producing the third-largest rail system in

the United States, after Burlington Northern and CSX. Alan C. Furth, the president of Southern Pacific, called Friday's lifting of the commission order "very important." He added: "It permits a very significant forward step and sets the stage for a case to be brought before the ICC on its

To bring about the merger of the two holding companies before the commission rules on the rail combination, Southern Pacific's rail subsidiary. Southern Transportation

Co., was put into a voting trust on Friday. The ICC said in its statement that it retained the jurisdiction "to modify the proposed vot-ing trust as circumstances

The merger and the creation of the voting trust were confirmed by Paul Cunningham, an attorney with the Washington law firm of Pepper, Hamilton & Scheetz, which has been retained by Southern Pa-

Shareholders of Santa Fe and Southern Pacific approved the merger at a meeting Dec. 14.

If the two railroads are allowed to combine, they would form a rail system stretching for 25,000 miles and linking the Gulf Coast with the Great Lakes and the West Coast. In its decision to lift the order,

the commission concluded that "none of the action taken or proposed so far as disclosed by the record before us violates any provision" of federal law. Union Pacific, Missouri Pacific,

and Missouri-Kansas-Texas had argued that the combination would reduce Southern Pacific's competitive position and alter the existing competitive balance among the

Santa Fe, which had earnings of \$108.2 million on revenue of \$3.2 billion last year, also has businesses in pipelines, natural resources, forest products, real estate, and construction. Southern Pacific, which had earnings of \$120.1 million on revenue of \$3.1 billion last year, has other businesses, including trucking, real estate, natural resources, and pipelines.

The ICC's ruling followed an earlier refusal by a federal judge to allow competing railroads to block the merger.

As part of the agreement for the

By Kenneth N. Gilpin New York Times Service

NEW YORK --- Commercial activity between Iran and the United States is picking up, despite allega-tions of Iranian complicity in the bombings of American embassies throughout the Middle East over the past seven months.

Less than \$500 million of bilateral trade was done in 1980, but business has since picked up. In October more than \$1 billion of goods was traded. U.S. government and private economists say the trade levels are much higher if indirect transactions through agents or other intermediaries are included.

Currently, the United States is importing more from Iran — principally oil — than it is exporting. But analysts say that U.S. oil service and oil companies, as well as through third countries," said makers of other machinery and spare parts, have experienced a pickup in their Iranian business.

an interest section in the Swiss em-

ing status, a classification which allows its goods to enter the United States at the lowest possible tariff rates. At the same time, the State caviar, pistachio nuts and carpets. Department lifted its ban on travel Only a handful of countries, most of them Communist, do not

By Jack Vance. 334 pp. \$14.95. Timescape/Simon & Schuster, 1230 Avenue of the Americas, New York, N.Y.

Reviewed by Michael Dirda

WITH its two punchy syllables, the name Jack Vance suggests a writer of crusty, no-nonsense prose. In fact, Vance is widely admired, not to say revered, for his mannered ironic diction, colorful vocabulary and courtly turn of phrase. Whether he writes science fiction, high fantasy, or mysteries - and Vance has been honored with the Hugo, Nebula, Jupiter and Edgar awards in these fields — his delicious sentences linger as the chief pleasure of his inventive books.

In "The Eyes of the Overworld" - the volume to which "Cugel's Saga" forms a sequel

Vance introduces his picaresque antihero: "Cugel was a man of many capabilities, with a disposition at once flexible and pertinations. He was long of leg, deft of hand, light of finger, soft of tongue. His hair was the blackest of black fur, coving sharply back over his eye-brows. His darting eye, long inquisitive nose and droll mouth gave his somewhat lean and bony face an expression of vivacity, candor and affability. He had known many vicissi-tudes, gaining therefrom a suppleness, a fine discretion, a mastery of both bravado and stealth."

Such a sleek con man - part Jim Rockford. part Wiley Coyote - naturally requires suitable adventures to prove his address and dexterity, and Vance's two novels present plenty of these. Cugel dwells on a dying Earth of the far future, where civilization has reverted to medievalism and sorcerers study the past; where gids, erbs, deodands, grues, and other half-human creatures lurk in the shadows. In this twilit world, our intrepid ne'er-do-well manages to offend lucomnu the Laughing Magician of Almery. To forestall the Spell of Forlorn Encystment -- encapsulation in a constricted pod 45 miles beneath the earth — Cugel must acquire a certain magic cusp, then journey across his treacherous planet and deiver this ransom to Incommu. In "The Eyes of the Overworld" he miraculously succeeds, but at the last moment outwits himself and so is

thrust back to where he began his odys

thrust back to where he began his odyssey, alone on Shanglestone Strand on the far side of the Ocean of Sighs.

"Cugel's Saga" opens at this point with Cugel once again on the long trek back toward. Almery, this time by a different route, but one no less dangerous and dire. Fortunately, he early on acquires a new talisman with remarkable qualities — a scale from an energy enca-ture of another dimension — with which he hopes to tempt and defeat Incommu.

But first he has to get to Almery. At the beginning of each chapter. Cugel tradges-along invariably broke, bungry, dirty and tired. Approaching an inn or private manse, he observes some bizarre custom practiced by the locals. Soon he is invited to join their group and usually does so, hoping to swindle a purse or purious a treasure. Repeatedly, however, be finds himself tricked into some dangerous or odious enterprise, which he performs with a false gusto until he can instiate countermeasures. These usually prove successful -at first — and he wins the gold or the girl. But invari-ably at the last moment, due to some trivial oversight, Cugel loses one or the other (or both), thus finding himself again penniless and on the run, albeit a little closer to Almery.

The recurrence of this pattern points up the utter artificiality of Vance's stories. They are just that, stories, to be enjoyed as fabilians, traveler's yarns, tail tales of the future. The reader's happiness derives from the pleasure of listening to Vance's voice, in the contrast of sordid crimes and the most formal social discourse, in watching the swaggering and re-sourceful Cugel come up with one improbable scheme after another.

As Cogel makes his way back home, he suffers the hardships of a Ulysses, performs the labors of a Hercules: he works a slime pond for treasure, learns the worminger's craft, guards 17 virgins (to their general pleasure), destroys monsters, encounters a culture where people live on columns, joins a doomed caravan, files through the air on a charmed boat, briefly explores another universe, tricks several magicians, and finally faces off against Iucounne. Despite constant reverses, our blustery hero persists in regarding himself as diabolically conning, able to adapt to any vicissitude:

"The folk are peculiar in many ways," said Erwig. "They preen themselves upon the gen-tility of their habits, yet they refuse to whitewash their bair, and they are slack in their religious observances. For instance, they make obeisance to Divine Winlio with the right hand not on the buttock, but on the abdomen. which we here consider a slipshod practice. What are your own views?"

#### Yankees Fined \$250,000 in 'Pine Tar' Case

NEW YORK (UPI) - Baseball Commissioner Bowie Kuhn has assessed the New York Yankees and their principal owner, George Steinbrenner, \$250,000 for comments about last summer's disputed "pine tar game." The fine is believed to be the largest ever assessed a sports team and an owner. Kuhn said he considered the remarks detrimental to the best interests of baseball.

In Tampa, Florida, Steinbrenner said late Friday that the fine was excessive but that it would be paid.

A New York-Kansas City game on July 24 was halted in the top of the ninth inning after George Brett's two-run homer gave the Royals a 5-4 lead with two out. Umpires ruled that Brett had excessive pine tar on his bat and declared him out, ending the game. But Lee MacPhail, the American League president, reversed the decision. The game was resumed Aug. 18 and the Royals won.

At the time, Steinbreuner asserted that MacPhail's decision was unfair to the

Yankees. "Once again, MacPhail has favored the culprit," he said. "He's bending over backward to accommodate the team that perpetrated the crime. I like Lee, but I feel sorry for him. He made a very dumb decision. It was a putrid decision. I don't question his integrity or his decency, but you have to question his decision."

#### Grand Prix Track Season to Begin Jan. 13

NEW YORK (AP) - The 1984 U.S. indoor track and field grand prix, a competition based on points scored in events in 15 meets, will begin Jan. 13 with the Ottawa International Indoor Games, organizers have announced.

The grand prix, in its third year, will offer \$150,000 in prize money. The top men's and women's finishers will receive \$10,000 apiece, with second through fifth in each division earning \$8,000, \$6,000, \$4,000 and \$2,000, respectively.

All prize money will be awarded to the member club in The Athletics Congress for which the athlete competes during the U.S. indoor track and field champion-ships, the final meet of the series, Feb. 24, in New York. Last year, Billy Olson, a pole vaulter, won the men's overall title for the second straight year. Stephanie Hightower, a hurdler, won the women's title.

#### Forrest Gregg Is Named to Coach Packers

GREEN BAY, Wisconsin (Combined Dispatches) — Forrest Gregg, the Cincinnati Bengals' coach for the last four seasons, has been named head coach of the Green Bay Packers of the National Football League. He replaces a former Packer raised for similar operations in teammate. Bart Starr, who had coached the team for nine years. Robert J. Parins, the club president, said Saturday that Gregg, 50, had signed a

### Psst — You Wanna Buy a Horse? It's Getting Easier

#### By Andrew Beyer Washington Past Service

WASHINGTON - Not too many years ago, it seemed forbid-dingly difficult for a newcomer to get into the thoroughbred business. The upper echelons of the sport were dominated by a small clique of rich owners.

But now anyone who wants to invest \$100 - or \$100,000 - in horses need only pick up the tele-phone and call his stockbroker. The racing business has started to welcome public participation.

Most high-bracket taxpayers have probably seen offers to join limited partnerships. Investors of more moderate means can buy stock in corporations that breed thoroughbreds. The deals take many forms.

• International Thoroughbred Horse Breeders was formed as a breeding operation, but now has branched out and is rebuilding New Jersey's Garden State Race Track,

· Bert Firestone, one of the country's most prominent horse owners, sold a 49.9 percent interest in all his yearlings to 75 investors who put up \$100,000 apiece. Kinderhill Farm of New York

took in \$23 million this year for eight different horse partnerships - nearly 10 times the amount it • The owners of Spendthrift

## Seahawks Demolish Broncos, 31-7

المحكدا من الأصل

Seattle Seahawks to a 31-7 thrashing of the Denver Broncos in their American Football Conference wild-card playoff game here Satur-

By winning their first-ever Na-tional Football League playoff game, the Seahawks advanced to the AFC semifinals against the Eastern champion Dolphins in Miami on New Year's Day.

Krieg, who became Seattle's starting quarterback midway through the regular season in place of Jim Zorn, finished with 200 passing yards before being replaced by Zorn late in the game. Krieg learned with Steve Largent for a 17-yard scoring pass in the first quarter, with Pete Metzelaars for a 5-yard TD in the third period and with Paul Johns for an 18-yard touchdown pass in the final quarter. Seattle's final touchdown came on a 2-yard run by David Hughes with about 5½ minutes gone in the last quarter. Krieg was 7-for-7 for 160 passing yards in the second

The winners' Curt Warner, the AFC rookie rushing champion, rushed 23 times for 99 yards. Steve DeBerg, playing for the first time in seven weeks, started at quarterback for Denver and was

replaced by rookie John Elway with the Broncos trailing, 31-7, "Dave Krieg has played outstanding football for us," said first-

SEATTLE — Dave Krieg threw that much before this year, but he three touchdown passes and comthe touchdown passes and comcertainly came through with a great and had started just five NFL regular this sea.

Seahawks as a free agent in 1980 a first-down play on the Seattle 4and had started just five NFL regular this sea. You know he didn't really play Krieg, who was signed by the driving 71 yards in 13 plays. But on Seahawks as a free agent in 1980 a first-down play on the Seattle 4-

ular-season loss in Denver on Nov. 26, in which he was lost the ball seven times on interceptions and

"Now I've got more of an idea what it's all about." Krieg said. "I just tried to do some things that have got us here. I didn't want to get caught up in the emotions of the

"At halftime, we decided to mix our offense up more because we were trying to establish our running game in the first half. It took a little while to get used to Denver's defensive fronts. They came out in a four-man front and that was a surprise. We had to adjust." 'He's come in and done a good

job, "said retiring Denver lineback-er Randy Gradishar of Krieg. "He's coming along a lot faster than I thought he would."

The 25-year-old from Milton or made a fumble in his last three

"We played a team that made no mistakes," said Bronco Coach Dan Reeves. "It's hard to beat anybody when they execute the way they did. They're an excellent team — you can't give them enough credit."
Seattle had no turnovers, but the Broncos gave up two pass interceptions and a fumble.

DeBerg completed 14 of 19 passes for 131 yards and one touch-down while Elway was 10-of-15 for 113 yards. Each was intercepted

Seattle, an eighth-year franchise that went 9-7 during the regular season, led, 10-7, at half time on Norm Johnson's 37-yard field goal with 512 minutes gone in the second

The Seahawks went 32 yards in nine plays to position Johnson for his three-pointer after Kerry Justin intercepted a DeBerg pass intended for Steve Watson on the Seattle 3 and returned it 45 yards.

After Johnson's field goal, the

when hit by Shelton Robinson, and Paul Moyer recovered on the 5 with 1:47 to go in the half. DeBerg hit on all six of the passes he attempted

for 64 yards on the drive.

Both teams scored in the opening period. The Seahawks' TD came on a 62-yard, eight-play march after the opening kickoff. Largent beat Louie Wright into the end zone to catch the 17-yard pass from Krieg. Denver went 76 yards in nine

plays for its score. On a third-and-10 situation from the Seattle 13, DeBerg teamed with Jesse Myles for the touchdown with 11:30 gone in the period. Myles caught the ball on the 2 behind defender Don Du-

Seattle made it 17-7 on its first possession of the second half with Krieg finding Metzelaars in the back of the end zone 512 minutes into the third quarter. Krieg hit on passes of 34 and 28 yards on the

The Seahawks scored on the first play of the fourth quarter, the 18varder from Krieg to Johns cap-

ping a 9-play, 61-yard march. They put the game out of reach Broncos appeared headed toward with a nine-play, 64 yard drive that their second first-half touchdown, ended in Hughes's 2-yard TD run.

> is progress," Lexcen said, looking around at 12-Meter yachts from all over the world at the Cove Haven Marina's huge shed. "There are a lot of dead boats in there."

In defecting to the United States Football League with a year of eli-gibility remaining, Herschel Walker was unable to repeat as the winner of the Heisman Trophy, voted to Mike Rozier, a Nebraska running back. If they achieve a convincing victory over Miami (Fla.) ed to an extension through Cornhuskers are expected to be ranked No. 1 in both wire-service polls.

Although the National Football League's television ratings slumped this season, pro football's popularity in Washington, D.C., has never been greater. After battering the Miami Dolphins, 27-17, in Super Bowl XVII, the Redskins await the upcoming playoffs with a 14-2 record, the NFL's best John Riggins, who set a Super Bowl rushing record with 166 yards, has rushed for 1,347 yards and a league record 24 tonchdowns this season. In the days before Super Bowl XVII, Riggins, now 34, was asked to explain his longevity as a running back.

By winning the Stanley Cup for the fourth consecutive year, the New York Islanders maintained George Brett's bat [see Sports their domination of the National Hockey League as well as their Throughout the America's Cup domination of Wayne Gretzky, the Edmonton Oiler center. Gretzky, Australia II's secret at its Newport, who will be 23 next month, won his Rhode Island, dock. But after the fourth consecutive scoring champiseventh and decisive race Sept. 26, onship (and fourth consecutive

name of Washington who could wiggle through enemy

lines. But their air force secretary was a man named

Theismann, an elusive and gabby theatrical character who was a master of cumning tricks.

He was trained in New Jersey and at Notre Dame, where he mastered the secular and spiritual arts, and

he knew precisely when to punt and pray, and if all else failed, to run for his life.

In addition, the Redskins also had opportunistic special teams. For example, on kickoffs and punt returns they had little swifties with swivels in their

hips. Or if they faced a big tackle like a Tip O'Neill on the other side of the line, they'd just assign a couple of bruisers to tip Tip over and make a hole for the

Riggins tank.
But there was something else about the Redskins.
They were the abandoned losers, a pickup team that

thought it could win with a lot of rejects who could

catch impossible passes over defenders twice their size.

And, in a pinch, they could call in Big Toe Moseley, who could pick up a three-point field goal from 50

At the end of '83 these practical football techniques

began to impress the Redskins' political neighbors.

For example, the team rejects "seniority." If the old

boys can't cut it, they bench them or trade them or pay

them off. And when they're in trouble, they call in

Moseley and go for three - and draft some new boys

That's what the Redskins have been doing in the last

few years, and they're on the way to the playoffs to

defend their title as the champions of the Super Bowl

So it came to pass at the end of 1983 that the politicians in Washington decided that the Redskins

Lewis, who completed 9 of 12 passes for 148 yards in the first half and was named the Sun Bowl's most valuable player, scored from a yard out to end an 86-yard drive midway through the second quarter and lofted a 19-yard touchdown pass to split end Joey Jones 43 seconds before the intermission to make it 28-0.

Alabama's domination went beyond the scorebaord. The Crimson Tide piled up 303 yards in the first two periods — against an SMU team that had yielded an average of 256.1 in 11 regular-season games — to 105 for the Mustangs and had a 17-4 advantage in first downs.

It was Alabama's 37th bowl

game and 25th in a row, both national records. The victory enabled the Crimson Tide to snap a twogame losing streak and wind up 8-4 in Ray Perkins's first season as coach after succeeding the late Paul (Bear) Bryant, It also was Alabama's 20th bowl

victory (equaling Southern California's all-time mark), against 14 losses and three ties. SMU, the nation's winningest

team over the last three seasons with a 31-2-1 record before Saturday's debacle, finished 10-2. Turning the ball over three times on fumbles and twice on interceptions, SMU finally scored with 3:41 left in the third period, going 78 yards in three plays with freshman Jeff Atkins bolting 58 yards to the Bama 15 and Lance McIlbenny tossing a touchdown pass to split end Marquis Pleasant, another freshman, on the next play,

### The Game of the Name

By William Safire WASHINGTON — White House spokesman Larry Speakes had a bad day last month. He had been ordered to slap down the chairman of the Council of Economic Advisers, Martin Feldstein, who had been differing a litde publicly with the Reagan party line on budget deficits. But instead of merely castigating Professor Feldstein for wandering off the reservation. Speakes appeared to make fun of the pronunciation of

A reporter first mispronounced the Feldstein name in his question, saying "Feld-STEEN" instead of the way the economist prefers. "Feld-STINE." Speakes then misspoke, picking up the error, and corrected himself with a muttered "Could never get his name straight." That was interpreted as unseemly ridicule or, even worse. an ethnic slur, and another White House aide then was forced to put out word from anonymous ambush that the president was "furious" at his spokesman.

Speakes was indignant at what he considered a bum rap: "I would also look very carefully." he cautioned the press corps. "at who mispronounced Feldstein's name.

That throws into stark relief the issue of the pronunciation of names in the United States. Which is "correct" — the way you pronounce your name or the way most others pronounce yours and other, similar

Your house may not be your castle, but your moniker is your property to pronounce the way you like and to correct others about. Tony Dorsett of the Dallas Cowboys prefers "Dor-SETT," and pronuncia-tions rhyming with "corset" are incorrect as applied to him. In the same way, quarterbacks named Taliaferro may want their names Anglicized to "Tolliver," which is stretching it, but if Cholmondeley is pronounced "Chumley," it's Tolliver in the pocket. We cannot go overboard - I cannot demand that everyone pronounce my name "Robert Redford" -- but within bounds of common sense, it's our

pronounce names simplify life for others by making the spelling easier: at other times, people who insist on pronouncing names their way

change the spelling to fit the pronunciation. In my family, the name is usually spelled Safir (from the Hebrew word sofer, "scribe"); according to Aunt Toots (Mrs. Dorothy Goodman), my father and all my uncles and aunts pronounced the name like "sapphire." In the Army, I tired of correcting the sergeants, who called me everything from "safer" to "zephyr," and added an e. Nobody in the family followed; I am now the only one correctly pronounced by strangers and am a black sheep at a bar mitzvah.

What about steen and stine? Is there any rhyme or reason to the chosen pronunciation? Everyone named Stein, and Stein alone, pronounces the name stine. Stein is a stein is a stein, as Gertrude used to say. Yet Andrew Stein, borough president of Manhattan, has an industrialist father named Jerry Finklestein, who pronounces the last syllable steen. When son Andrew shortened the name, the pronunciation automatically shifted

Here are a few stines: John Steinbeck. Albert Einstein, Gloria Steinem, San Francisco Mayor Dianne Feinstein; the "eye" pro-nunciation of the ei can also be heard in the names of Dwight Eisenhower, Carl Reiner, Caspar Weinberger and Barbra Streisand.

Now here are a few steens: Leonard Bernstein, Carl Bernstein, Rob-

A pattern is seen by John Algeo, professor of English at the University of Georgia. "The German names are usually pronounced with an eye sound. Most of the Jewish names have had the American influence of the ee sound, as in the words weird or receive, particularly that ei after the letter c." Professor Algeo notes that, in Yiddish, a sound change occurred, with the ei pronounced as a long a, as in stain, but changed in American-influenced Yiddish to ee. "The ending of stein, pronounced steen," he concludes, "reflects an American influ-

From this, we can formulate Stein's Rule: Although names ending in stein can be pronounced either stein or steen, names consisting exclusively of Stein are pronounced stine. (In the rare case of a ; .rson named Stein refusing to go along with the crowd, this is changed to "Steen's Rule.")

## The Jungle Sanctuary of Gertrude Blom

By Maxine Sevack International Herald Tribune

MEXICO CITY — Gertrude Blom rises every morning at 5:30, limbers up with a few calisthenics, reads four daily newspapers in as many languages, and takes one of her three horses out for a quick ride in the Gertrude Blom is 82, Swiss-

born, and has lived in Mexico since 1943. Her home is a converted seminary called Na Bolom, and guests come from around the world for the privilege of staying there. Her rates are the equivalent of about \$60 a night but To be accepted as a guest you must admire and support Gertrude Blom's work; any visitor she considers unlikely to appreciate the mood and the quality of the place is not permitted to stay. With her late husband, Frans,

Blom has been credited with saving the local Lacondon Indians from extinction. Thought to be direct descendants of the ancient Mayans, only 200 Lacondons were still living when Gertrude Blom first arrived in Mexico. They were a loosely structured group who as they scattered throughout the jungle were fast losing their language, their tradi-tions, and their very souls to Western encroachment. Now there are 400 of them, and the Bloms have been responsible for the revival of some of their an-

cient customs and traditions. Na Bolom and the surrounding Lacondon jungle are in the rich, green tropical and mountain country of Chiapas, Mexico's southernmost and least devel-oped state. Na Bolom itself is on the outskirts of San Cristóbal de las Casas, a town about 100 miles from the Guatemalan border. San Cristóbal is the headquarters for a number of charity groups trying to help the refugees who pour into Chiapas fleeing politi-cal upheaval and guerrilla warfare in Guatemala.

Today San Cristóbal may be a significant town capable of absorbing numerous refugee organizations, but there were no roads through the jungles of Chiapas at all when Gertrude Blom first arrived in Mexico. She had left Europe for New York during World
War II on a mission to help colfrom Mexico City and between

Gertrude Blom: "My work is never over."

lect money for refugees of Nazism. Before that she had been in a camp in France for her anti-Nazi efforts and for her role as secretary on the International Committee Against Fascism. Once across the Atlantic she decided to stay, and when she arrived in Mexico City it was on an assignment with the Mexican secretary of labor. Her job in Mexico was to conduct a study of the working conditions of factory

workers. Later she did a series of interviews with women who had participated in the Mexican revolution and sold articles to European and Mexican publications. When she finally came to Chiapas it was on a government expedition that had made extra room for her when she expressed a wish to visit the area.

Today there are long-distance buses that travel the paved roads Chiapan villages and towns. The buses are invariably filled with

people packed so tightly they don't need to hold on because

there is nowhere to fall. On one of Gertrude Blom's first trips into the jungle, she had waited five days for a chartered mule to arrive and carry her out. With not so much as a book to keep her company, she wandered over to a field and introduced herself to some men who were loading a plane. One of them was a Danish archaeologist, Frans Blom, later noted for his pioneer efforts in the study of Mayan

When the Bloms purchased Na Bolom (local Indians mispro-When the Bloms purchased Na ing around and laughing. The Bolom (local Indians misprochild is holding is an injured and nounced Frans Blom's name as bewildered bird. Bolom, which in their language means jaguar; thus Na Bolom, House of the Jaguar), there was a Look. Look over there at humansingle window in the entire build- ity."

ing. Cows wandered in and out of the courtyard to graze in the overgrown garden.

Today there is a library of books on the local Indians and their histories and lands, and guest rooms are filled with local crafts and treasures that the Bloms collected over the years. Frans Blom died in 1963, but Mrs. Blom still accompanies guests on weeklong mule rides through the jungle.

After half a lifetime in Mexico, however, she feels she has accomplished little. "Yes, the house is an achievement," she says, "but despite everything the traditions of the Lacondons are going. They earn money from the export of mahogany from their forests and they want to spend it on Western goodies. It's sad, but how can you forbid them to buy what they see in the shops? How can you tell the young ones that they can't have cars? Our so-called civilization is so strong, too strong, like a tractor, so when they get a taste of it they are all too tempted."

Some of the Lacondons with whom she has worked understand her passion for retaining what is good and simple. So al-though now when they build their own houses they make the roofs of tin, when Mrs. Blom asks them to come over and add a section of roof to her home, they do it with palm leaves because they know it will please her.

But even such gestures are not enough to convince Blom that her work is done. Her latest project, now that she has done what she could to save the Lacondons, is to protect the jungle from the large-scale burning and destruction that currently threatens its exis-

Blom is tired. Her friends advise her to slow down, but she refuses. As she shows a visitor to the door, her attention is distracted by a group of schoolchildren being shown through the Na Bolom museum. One of the children and all of the children are gather-

"You see?" she says. "You see why my work is never over?

#### PARIS POSTCARD

### Anchorwoman Ockrent

By Nancy Kenney

PARIS — A diplomat's daughter who gave up academic glory to to film cans for NBC 16 years ago has become one of France's mo

A veteran of 10 years' work with U.S. networks, Christine Ockre learned how to dig up facts and badger the powerful under successive memors as Dan Rather and Mike Wallace of CBS's "Minutes,"

But reporting in France, where television always has been government-owned, is a different game, Ockrent says. "American reporting is much more brutal because your culture is much more brutal, says the blond, 39-year-old anchorwoman and executive producer of the 8 o'clock news on the Antenne 2 network, "We are still a very literary culture, and words, especially flowery words, are impor-

But that doesn't mean she isn't tough. Part of Ockpan's appeal is her crisp, direct style. And a summer-long attempt by her co-anchor, Patrick Poivre d'Arvor, to encroach on her executive authority ended in his departure. Recent polls have shown her leading other French TV newscasters in popularity.

Ockrent was born in Brussels in 1944, but grew up in Paris where her father worked for the Organization for Economic Cooperation and Development. She graduated with honors from France's presugious Institut d'Etudes Politiques. In 1967, she was awarded a fel-

lowship to study at Harvard University. To refresh her English, she took a three-week job as a researcher with NBC in Paris. Those three weeks stretched into two years. "I had fallen in love with televi-

sion," Ockrent says, "but it was hard for my family to understand. Rather than writing intelligent papers about the great topics of our time, here I was in airports getting film equipment out of customs."

Next came a seven-year stint with a "60 Minutes" production unit in London. From researcher, she rose gradually to producer, learning the ropes from Rather, Wallace, Harry Reasoner, Morley Safer and others. "It was an extraordinary school.

At that time 60 Minutes was in its envy for the American news bonprime energy and wow, what a ness. Having worked in it, I know gang," she recalls.

lebraties as European correspon- they're not that much better posting.

Who." Poor ratings killed the show and she returned to France, world of the ing in radio and television news for the the next four years.

In the fall of 1981, Ockrent way fired to co-anchor Antenne 111 hired to co-anchor Autenne 21 nightly news. She was named exe unive producer of the 8 and 1 o clock newscasts in January.

As a one-time producer of th hard-hitting "60 Minutes," takes some criticism from oh friends over the timidity of Frenci television news. She claims a ner generation of journalists is pushing for more investigative reporting but change, she says, comes slowly

There is a tradition of secrecy France, and the French are not cynical and far less moralistic i their outlook toward politics. God and evil in our country are not a simplistic as in yours," she say "Watergate, for example, was never

understood here." She reportedly earns \$45,000 year, far less than most evening news anchors in the United State "I have a great admiration and what's wonderful and powerful-She left that job to interview ce- about it," she says. "But I think
